

Opt to chose an ‘eco-friendly’ Ice making technology

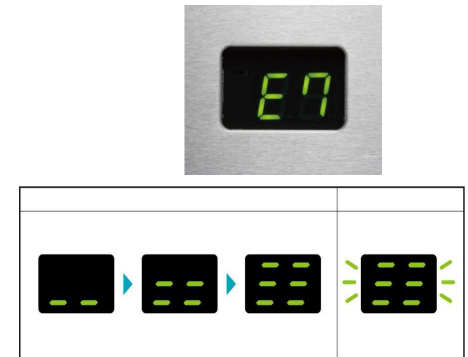

Energy & Cost Saving Efficiency

Due to the collaboration of latest Hoshizaki technology and accelerated harvest assist feature that pre-defrost of ice melts cycle from evaporator plate

Self Monitoring Technology

M series external operation indicator lights continually communicate the machine’s current status for complete confidence in its ice making capabilities.

Easily monitor status without opening up the panel

Unique fan blade design helps reduce noise

Quiet and Easy Access servicing

With a reliable fan blade and motor design, quieter compressors, and a special sound shield, M series cube machine reduce the noise of ice making versus world’s traditional model.

Servicing offices, homes, mine sites, schools, cafes, boats, caravans, ships, factories, salons and more.
