BIBO

the future of water

BIBO is the next generation hot and cold water dispenser, providing you with an unlimited supply of delicious tasting filtered and purified water, served perfectly chilled or boiling hot at the touch of a button – it really is the future of water.

Quality You Can Trust

BIBO carries Watermark and C-Tick certification and conforms to all regulatory requirements.

Premium Water Purification

BIBO utilizes the latest multi-stage carbon and UV filtration - all impurities are filtered from your tap water to the highest of standards, resulting in great tasting, healthy water served chilled or boiling hot.

Energy Efficient & Environmentally Friendly

BIBO combines multiple kitchen appliances into one energy efficient system - saving money not just on water but also energy costs. Sleep mode promotes extra energy savings when your BIBO is not being used.

It's time for a new way to think about water

At BIBO we have 25 years experience in the water industry and are passionate about promoting health and well being through good hydration at home and at work. We believe that people should drink more water and less unhealthy beverages... our mission is to provide Australians with a super convenient way to do so.

what others are saying about BIBO

"We love our BIBO! The whole family is drinking more water because it tastes so good chilled. Tea and coffee taste so much better and no longer waiting for the kettle to boil. Don't know how we coped without it."
- R. Whittaker

"BIBO is without doubt the best product we have ever purchased. It has saved us a fortune in bottled water and is super convenient when needing hot water instantly like for baby bottles." - A. Shapiro

"Just a short note to thank you guys for the wonderful service provided by BIBO. There are not many companies that know what good service is all about, they could learn from BIBO." – A. Naik

The office water solution saving you time and money

- ★ Instant chilled and boiling water on tap 24/7
- ★ Saves valuable time not waiting for the kettle to boil
- ★ Provides purified drinking water to promote staff health and well being
- ★ Get rid of unhygienic water coolers, bubblers and bottle clutter
- ★ Saves money on expensive and environmentally unhealthy bottled water
