

W2W Bath Filter

Enjoy a relaxing bath and protect sensitive skin by removing harmful chlorine with a W2W Bath Filter.

Simply drop into bath water and swirl around for a few minutes to dechlorinate water and remove chlorine odours.

Perfect for delicate baby skin and eczema sufferers who want to enjoy a gentler, kinder bathing experience.

Remove the Filter from the tub before bathing.

W2W Bath Filter

Guarantee clean, healthy bathing water for you and your family whether you're at home, on holiday or visiting friends and family with a W2W Bath Filter.

- › Crystal Ball® filter technology dechlorinates water and removes chlorine odours and taste
- › Skin and hair feel softer
- › Removes excess chlorine which dries out skin and can cause irritation to sensitive young skin and eczema sufferers
- › Quartz crystals "energise" the water to reduce surface tension and make the water feel softer
- › Lasts up to 200 baths depending on water usage and quality of the source water
- › Simply swirl around bath water for 5 to 8 minutes then remove from the water
- › No plumbing, chemicals or electricity required
- › Remove filter media pouch from bath water after each use and leave to dry before next use
- › Made in the USA
- › Lightweight and extremely portable - take it with you when you travel

How does a W2W Bath Filter work?

W2W Bath Water Filter contains Crystal Ball® filter technology which is non-toxic and safe for babies, children and adults.

The media filter in the fabric pouch turns chlorine ions in the water into harmless chloride and the KDF filter eliminates the toxic effects of chlorine, chloramine and chlorine gas.

Fill the bathtub and drop the W2W Bath Water Filter into the tub and use the attached cord to circulate the filter ball through the bath for 5 to 8 minutes.

After use, remove the filter ball from the water before getting into the bath.

Open the bath filter ball, remove the filter media pouch and hang it to dry out of the reach of children.

Dechlorinated water feels softer and is kinder to baby, children and adult skin and is also great for washing pets with sensitive skin and allergies.
