## W2W DIY Twin System Filter Replacement Kit

**Our easy-fit DIY Under Sink Twin Filter Kit includes two premium Water2water filters and the tools needed to replace filters and guarantee top quality drinking water.**

- › Premium W2W Sediment and Carbon filters remove impurities including silt, rust, sand, algae sediment, scale particles and dirt, along with herbicides, pesticides, chlorine, and chlorine by-products
- › W2W Sediment and Carbon filters last between 6 to 12 months depending on water use and the quality of your source water
- › Super simple – replace existing water filters in minutes
- › Full instructions included
- › DIY Kit includes a housing spanner to undo and tighten filter housings, a brush for cleaning filter housing fittings and a food-grade, water-based gel for lubricating the O-rings on the filter housing
- › W2W Carbon and Sediment filters are compatible with most 10 x 2.5" twin under sink mains fed filtration systems.
- › W2W DIY Twin Copper Reduction Filter Kit available which will ALSO remove excess Copper, Lead, Mercury and other metals
