

W2W Portable RO – DIY Filter Replacement Kit

High-performance, replacement carbon GAC filters for Water2water's Portable Reverse Osmosis System.

Keep your drinking water clean, free from contaminants and tasting great.

Pack includes: -
2 x W2W Inline Carbon GAC Filters

Water2Water Portable Reverse Osmosis DIY Replacement Filters

Powerful inline filters for use with W2W's Portable RO system to protect the RO membrane and guarantee pure, healthy drinking water wherever you are.

- › Premium W2W Inline Granulated Active Carbon (GAC) filters remove impurities including silt, rust, sand, algae sediment, scale particles and dirt, along with herbicides, pesticides, chlorine, and chlorine by-products
- › Water is filtered through the carbon filter before the RO process to protect the RO membrane, and again after the RO process to remove odours and improve the taste of drinking water
- › W2W's Inline GAC filters last between 6 to 12 months depending on how much water you use and the quality of your source water
- › RO membrane is **not included** in DIY Kit
- › Regular filter replacement prolongs the effectiveness and lifespan of the RO membrane and ensures your Portable RO System removes up to 99% of the chemicals (including PFAS) and contaminants in source water
- › We recommend regular filter replacement to guarantee the quality of water produced by the W2W Portable RO System
- › Call us on **1300 880 303** to discuss your filtration needs.
