- › Available to rent in most areas of Western Australia with regular filter replacement and servicing included with many rental plans

### Is a W2W Filtered Hot & Cold Water Cooler right for you?

This filtered water cooler system provides unlimited clean, fresh hot and chilled drinking water for up to 30 daily users.

The Maxiflow mains-fed water filter system purifies the water supply and feeds the Water Cooler with contaminant-free drinking water and reduces scale build-up.

The compact filter system sits under the sink and connects easily to the water cooler which needs to be plugged into a power supply.

Once connected, your water cooler chills and / or heats filtered water before dispensing it via the user-friendly taps.

To protect drinking water quality, filters should be replaced every 6 to 12 months depending on source water quality and usage.

Our low-cost servicing and preventative maintenance plans (included with rentals), take care of everything – including regular filter replacement and system sanitisation.

## SPECIFICATIONS

### W2W Hot & Cold Water Coolers

#### W2W MAXIFLOW SCALE REDUCTION FILTER SYSTEM

- Compact single filter system with 10" and 15" filter options for domestic and commercial use
- Hygienic integrated filter housing and cartridge
- Powerful 5-micron filter removes harmful bacteria, parasitic cysts, viruses, pesticides, herbicides and other contaminants
- Anti-scale Maxiflow filter reduces calcium and prevents build-up on hot water dispensers
- Easily upgraded to a Reverse Osmosis filter system in areas with poor-quality source water

#### Western Australia servicing team

Water2water's head office is in Perth, and we have a professional team of plumbers and water filtration technicians living and working across Western Australia.

We offer comprehensive servicing and maintenance plans which include regular scheduled visits by one of our water filtration technicians to change filters, clean, and sanitise the system

Installation, scheduled servicing and filter replacement is included with many rental plans in most parts of WA.

We ship across Australia and overseas.
