- › The large water tank capacity provides 140 glasses of chilled filtered water every hour
- › Also available to rent in Western Australia with comprehensive servicing and preventative maintenance included with many rental plans

Is a W2W Zip 28L Filtered Water Fountain right for you?

Providing cool, clean drinking water in outdoor locations can be a challenge.

The Zip Sitemaster is a robust, weather resistant drinking water fountain made for outdoor, industrial use.

The bubbler (carafe) feature is perfect for filling water bottles to help your employees, students and visitors stay hydrated.

Zip Sitemaster water fountains need to be connected to an electrical point and cold water supply.

The Maxiflow under sink water filter is a perfect way to remove up to 99% of dirt, bacteria, chemicals and contaminants.

This will ensure water dispensed by the Zip Sitemaster is always clean, fresh and healthy.

Why choose Water2water?

We are a privately-owned company and have been selling, installing, and servicing water coolers, fountains and water filtration systems in Australia for over 25 years.

Our client base includes individual domestic customers, hospitals, factories and large mining corporations and we pride ourselves on providing a professional, courteous service at all times.

In addition to the Zip Sitemaster, we also stock all major water cooler and fountain brands including Partner, Frigmac and Arcus.

From our Head Office and servicing centres in Western Australia, we provide an unbeatable installation, servicing, maintenance and repairs service throughout WA and cost-effective rental plans.
