

W2W DIY Twin Sediment and CC1 Carbon Filter Kit

Protect the quality of your drinking water with this easy fit 10" x 2.5" Sediment and Carbon CC1 filter kit for W2W Twin CC1 Under Sink Water Filtration Systems.

High-quality filters to keep your drinking water tasting great and free from chemicals, heavy metals and contaminants.

Pack Includes:-

1-Micron W2W Sediment Filter
0.4-Micron W2W CC1 Carbon Filter

Spanner, food-grade lubricating gel and filter housing cleaning brush and full instructions.

- › **W2W Sediment 1 Micron Filter** removes impurities including silt, rust, sand, algae sediment, scale particles and dirt, along with herbicides, pesticides, chlorine, and chlorine by-products
- › **W2W CC1 Carbon 0.4 Micron Filter** also removes up to 99% of metals, including copper, lead and mercury
- › Twin System filters last between 6 to 12 months, depending on how much water you use and the quality of your source water
- › Regular filter replacement is essential to keep your filtration system working efficiently and maintain a constant flow of clean, safe drinking water
- › The DIY Kit with tools makes it super simple to replace your existing water filters
