

## W2W DIY Twin Heavy Metal Filter Kit

Easy fit DIY replacement filter kit for Water2water's Twin Heavy Metal Filter System.

Keep your drinking water tasting great and free from chemicals, heavy metals and contaminants.

### Pack Includes:-

1 x W2W 1 Micron Sediment Filter

1 x W2W Carbon Heavy Metal 0.5 Micron Filter, spanner, food-grade lubricating gel and filter housing cleaning brush and full instructions.

If you are unsure which filters you need, please call our friendly team on **1300 880 303** and we'll be happy to help.

### W2W DIY Twin Heavy Metal Filter Kit

Our easy-fit DIY Twin Filter Kit includes two premium Water2water filters and the tools you need to replace filters and guarantee top-quality drinking water.

- › W2W Sediment and Carbon Heavy Metal Reduction filters remove impurities including silt, rust, sand, algae sediment, scale particles and dirt, along with herbicides, pesticides, chlorine, and chlorine by-products
- › The W2W Carbon Heavy Metal Filter also reduces excess heavy metals like lead, copper and mercury.
- › W2W Sediment and Carbon filters last between 6 to 12 months, depending on how much water you use and the quality of your source water
- › Super simple – replace existing water filters in minutes
- › DIY Kit includes a housing spanner to undo and tighten filter housings, a brush for cleaning filter housing fittings and a food-grade, water-based gel for lubricating the O-rings on the filter housing
- › Full instructions included
- › Call us on **1300 880 303** to check if this Filter Set will fit your system.
