

W2W High Capacity Replacement Shower Cartridge

Keep your skin and hair feeling soft and healthy with this replacement cartridge for our most powerful shower filter.

Does not affect water pressure and removes chlorine and contaminants for up to 900 showers.

Designed for the W2W High Capacity Shower Filter for a gentler, more refreshing shower.

W2W High Capacity Replacement Shower Cartridge

Ideal for people with sensitive skin and in areas with poor source water quality, the W2W High Capacity Shower Filter is one of the most effective shower filters on the market. You can fit this replacement cartridge in minutes.

- › Over 900 showers from each filter - based on a 7-minute shower (depending on source water quality)
- › Removes chlorine which can dry and irritate delicate skin and eczema sufferers
- › Reduces harmful pollutants and chemicals absorbed through the skin through shower steam
- › EPA-standard water filtration
- › Balances pH and retains healthy minerals and electrolytes
- › Replacement water filter cartridge for W2W High Capacity Shower Filter
- › Does not affect water pressure
- › No plumbing, chemicals or electricity needed
- › Reversible Filter Cartridge fits both ways up for balanced filtration and added durability

How does the W2W High Capacity Replacement Shower Cartridge work?

Fitting the replacement cartridge to the W2W High Capacity Shower Filter is simple.

Simply unscrew the polished chrome filter housing from the shower head, open the casing and replace the cartridge before screwing the filter back in between the shower head and the arm.

This powerful replacement water filter cartridge lasts up to 12 months or 50,000 litres of water – equivalent to over 900 x seven minute showers.

Chlorine, metals and dirt in tap water can enter your body through your skin and lungs when you shower.

Water2water's High Capacity Shower Filter removes up to 99% of chlorine, iron oxides, hydrogen sulphide, odours, and other contaminants from your shower water.

The W2W High Capacity Shower Cartridge retains essential minerals and electrolytes and balances pH to promote good health.

Contaminants removed

The Patented Filtration Cartridge - Chlorgon® with KDF

Removes up to 99% of the following contaminants: -

Chlorine

Dirt & sediment

Scale

Iron Oxide

Odours

pH Vs/anode

Fitting the Cartridge

Follow these 3 simple steps for easy installation

1ST STEP

Remove the existing W2W High Capacity Shower Filter from the showerhead and shower arm.

2ND STEP

Remove the blue plugs from the Replacement Shower Filter Cartridge and replace the old cartridge in the polished chrome housing.

3RD STEP

Reattach your W2W High Capacity Shower Filter between the shower head and shower arm.

Improving water quality throughout your home

With a W2W Whole House Filtration System, you can enjoy clean, freshly filtered water from every faucet in your home, including the shower.

Alternatively, a mains fed under sink water filtration system will provide great tasting, clean drinking water from your kitchen faucet.
